

**TOP SECRET**

Hello Loukari Team!

I am glad you are here, because we may need you. You are in the territory that is bombed by Vietcong Units. If you hear a siren, signifying the arrival of bombers, run quickly to the bunker and take cover. You will have only a few tens of seconds to hide before you can expect the bombers. Your main task will be to treat wounded soldiers. Therefore, let yourself be schooled by your Main Doctor. To make your task a little easire, the Allied air force will drop extra food tomorrow for You.

Good luck

J. F. Sullivan

U.S.General
